10th Class Science Chapter 14 Environment I Study Of Environment Previous Year Question And Answer Of Environment

1. **Greenhouse Gas Protocol**
What is the Greenhouse Gas Protocol?

(A) It is a set of guidelines for measuring and reporting greenhouse gas emissions from organizations. It is a voluntary standard that is widely used by companies and governments to track and reduce their carbon footprint.

(B) It is a set of guidelines for measuring and reporting greenhouse gas emissions from organizations. It is a voluntary standard that is widely used by companies and governments to track and reduce their carbon footprint.

(C) It is a set of guidelines for measuring and reporting greenhouse gas emissions from organizations. It is a voluntary standard that is widely used by companies and governments to track and reduce their carbon footprint.

(D) It is a set of guidelines for measuring and reporting greenhouse gas emissions from organizations. It is a voluntary standard that is widely used by companies and governments to track and reduce their carbon footprint.

REDD + is a set of guidelines for measuring and reporting greenhouse gas emissions from organizations. It is a voluntary standard that is widely used by companies and governments to track and reduce their carbon footprint.

2. What is the main purpose of the Greenhouse Gas Protocol?

(A) To measure and report greenhouse gas emissions

(B) To reduce greenhouse gas emissions

(C) To track and reduce carbon footprint

(D) To measure and report greenhouse gas emissions

3. What is the main purpose of the Greenhouse Gas Protocol?

(A) To measure and report greenhouse gas emissions

(B) To reduce greenhouse gas emissions

(C) To track and reduce carbon footprint

(D) To measure and report greenhouse gas emissions
